

## **Caister Parish Council Precept**

### **0% Increase**

Caister Parish Council has ensured that the rise in the element of Council Tax due to them has remained at 0%. Careful financial planning and controlled spending has meant that the Council has managed its income and expenditure in a way that has enabled this coming year to see no increase in the money needed by the Parish Council from our taxpayers. Any increases that appear on the Council Tax bills this year will be as a result of increases imposed by GYBC, NCC, or PCC (Police & Crime Commissioner), but not Caister Parish Council.

Looking ahead Caister Parish Council will remain vigilant in the handling of money paid into the Council's coffer, ever mindful that the money is not the property of the Council but is for the benefit of all our community. Spending will once again reflect projects that will benefit every corner of our village, and will be maintained at a level to hopefully achieve another 0% rise next year
