CAISTER ON SEA HERITAGE TRAIL

Foreword

Caister is a village, and has been so for over 2000 years, and like any village which is proud of its history and heritage, Caister wants as many people as possible to be able to share in the rich heritage and history of the place we live in or visit.

Reading about our heritage and looking at photographs of our past is nowhere near so satisfying as being able to go and see for real, the locations and read about the background to the various points of interest that make our village unique.

The best way of empowering people to do just that is to make up a Heritage Trail, so Caister Parish Council decided to go ahead and build a heritage trail for all the people that live in or visit Caister, so they might sample a little bit of our past, and at the same time get a bit of exercise out and about in the village.

The Heritage Trail is just a small taste of what the village has to offer those interested in its history. To include everything that deserves to be included in the heritage trail, would have required the trail to be much longer than was thought to be reasonable to make it an enjoyable outing.

It is hoped that the Heritage Trail will be an attractive outdoor pursuit for those of all ages and that the young especially will pass the interest on to future generations.
